

# DATA HOSTING

## USE MEX IN THE CLOUD

### QUICK SETUP

Hosting your data in the cloud might sound like a technical and lengthy process but we promise you it won't be. The majority of our hosted customers are up and running in less than 24 hours.

### INCREASED SECURITY

Daily backups, state of the art anti-virus protections, the latest IT infrastructure & live system replicas to ensure that downtime is next to none. Your connection is guaranteed with uptime of 99%.

### STRESS FREE TRANSITION

Transferring your MEX data into the cloud is a simple & stress-free process. Our dedicated cloud administration team take care of everything for you, making your setup as seamless as possible.

### FAST TRACKED SUPPORT

MEX Data Hosting cuts out the middle man and removes the need for IT staff. The MEX support team has instant access to your system allowing for fast tracked resolutions and real time guidance.

**Don't want the hassle of Hosting and Maintaining your MEX System?**

MEX gives you plenty of options for installation and hosting. You're able to run MEX from individual computers and tablets through a private network, or online via our Data Hosting service.

When you choose our Data Hosting service, your data is held with the world's most trusted IT Server Provider: Microsoft Azure and protected with up to date anti-virus and firewall technology.

# BENEFITS OF MEX DATA HOSTING

With 2 in 5 customers now on the MEX Hosted platform. There has never been a better time to make the transition to the cloud.

## RELIABILITY GUARANTEED

Your connection is always guaranteed with uptime in excess of 99%. Reap the benefits of increased speed and efficiency without any of the IT infrastructure.

## REDUCED COSTS

Transitioning to the cloud drastically reduces your IT infrastructure requirements, running costs and administration hours.

## SEAMLESS UPGRADES

Hosting customers receive all MEX software upgrades instantly. Experience all the benefits and releases of MEX without any delays in updates or IT restrictions.

## WORLDWIDE SECURE ACCESS

Take advantage of a worldwide established network and experience advanced data centres, daily back ups and secure access to your MEX system worldwide.

## INFRASTRUCTURE MAINTENANCE

Host your data with top of the line hardware and server software without the hassle of costs, ongoing maintenance or administration hours.

## INSTANT MOBILE APP ACCESS

When you host your data with MEX, you receive a comprehensive IT setup across all mediums including the Mobile App. Just one less thing to worry about!

## Cost

Annual fee based on the number of concurrent users. There is no minimum contract period.

## Mobile

Once set up, download the MEX Mobile App and connect to your hosted system.

## Version

All hosted systems are loaded with the latest version of MEX, Version 15.

## Database

A current MEX database can be sent in & instantly uploaded to the hosted setup
